Product
Catalogue

Fagron goes beyond being just a supplier of ingredients; we are relentlessly **consumer-centric**. Our commitment to innovation is ingrained in everything we do for our partners, making us pioneers in shaping the future of **personalized health**. Our unwavering dedication to simplifying science expedites the journey from concept to consumer, empowering you to introduce **purpose-driven nutraceutical and cosmetic solutions** to the market swiftly.

When you collaborate with Fagron for personalized health solutions, you gain an inventive, purpose-driven, end-to-end partner. We draw inspiration from the most crucial health requirements of consumers to deliver your next product with a clear purpose in mind.

At Fagron, innovation is at the heart of everything we do. We are constantly striving to push the boundaries of what's possible in the world of pharmaceutical compounding, personalized medicine, and beyond. The Fagron Innovative Materials initiative is a testament to our commitment to innovation and our dedication to providing cutting-edge solutions.

The FIM initiative was born out of a clear vision – a vision to introduce a range of materials and compounds in recognition of the growing need to create the highest quality customized health solutions. We saw an opportunity to fill this gap and make a significant impact on the industry.

Ultimately, the FIM project is about empowering industry customers to achieve new levels of creativity and precision in their service. We believe that by providing access to innovative materials, we are enabling the delivery of the highest quality customized health and beauty solutions that improve outcomes and quality of life.

Fagron's Value-Driven Innovative Materials for Market Success

Market Insights and Trends

We stay ahead of industry trends and emerging market insights to provide you with cutting-edge ingredients that align with consumer demands and current requirements.

Differentiation and Branding

Our portfolio offers you the opportunity to differentiate your products and build a distinctive brand presence in the market.

Unique, Clean Label, High-Quality Ingredients

Fagron's materials are known for their uniqueness, clean label appeal, and uncompromising quality, ensuring the success of your formulations.

Natural Ingredients

We respond to the growing demand for natural ingredients and their growing clinical value.

Innovation and Creativity

Our range of materials can help you spark creativity and develop groundbreaking and successful solutions.

Quality Compliance

We adhere to high-quality standards, ensuring that our materials meet strict requirements.

Convenience & Time-Saving

Our streamlined processes and diligent behind-the-scenes work ensure that you receive complete documentation and your materials on time, saving you valuable resources.

Sustainability and Ethical Sourcing

We are committed to ethical sourcing practices and sustainable initiatives, contributing to a healthier planet and a responsible supply chain.

Consumer preferences and market trends

Holistic Well-being

Consumers prioritize holistic well-being, disease prevention, and longevity.

Personalized Health

The demand for personalized health solutions is rising, with consumers seeking tailored products to meet their health goals.

Natural and Plant-Based

Natural and plant-based ingredients are in high demand, reflecting the desire for cleaner and more eco-friendly products.

Specific Health Goals

Products that address specific health goals such as energy-boosting, weight management, immunity enhancement, cognitive health, stress relief, and beauty are in great demand.

Alignment with Values

Consumers prefer products that align with their values, including those promoting sustainability and ethical sourcing.

Clinical Evidence

Consumers look for products with clinical evidence supporting the effectiveness and safety of natural materials and compounds.

Efficacy and Safety

In their search for health solutions, consumers prioritize products that effectively address their needs while maintaining a focus on safety.

Fagron Innovative Materials Categories

01

Health & Wellness industry

Focus

Well-being, nutrition, food supplements, nutraceuticals.

Designated use

Dietary supplements containing FIM products as main ingredients, or as synergistic ingredients in targeted formulations.

02

Personal care & Cosmetic industry

Focus

Skincare, skin treatment, haircare, beauty.

Designated use

Cosmetic formulations containing FIM products at a final concentration typically ranging between 0,5 to 3%.

Fagron Innovative Materials' Product Range

OleaFruTM*

Greek olive fruit extract

Olive Fruit dry extract standardized to 5-8% hydroxytyrosol.

OleaLifaTM*

Greek olive leaf extract

Olive Leaf dry extract standardized to 10% oleuropein.

OleaOlixTM

Greek ultra-concentrated extract of Extra Virgin Olive Oil

High Phenolic Extra Virgin Olive Oil liquid extract standardized to 20% polyphenols.

SidTea⁺TM*

Greek Mountain Tea extract

Greek Mountain Tea dry extract standardized to total phenolic content.

VinoPhexTM

Greek grape pomace extract

Grape Pomace dry extract standardized to total phenolic content.

AkkermatTM

Chili pepper extract encapsulated in fenugreek extract

Chilli pepper extract (2% capsaicinoids) combined with fenugreek extract (FENUMATTM technology).

MetaboMeloTM

Bitter melon fruit extract

Bitter Melon fruit dry extract standardized to 7% charantin.

NaringiColTM

Naringin compound standardized to 98%

Naringin powder, standardized to 98%, from Pomelo fruit.

PiceidoxTM

Polydatin compound standardized to 98%

Polydatin powder, standardized to 98%, from *Polygonum cuspidatum*.

NervonexTM

Nervonic acid standardized to 90%

Nervonic acid powder, standardized to 90%, from *Macaranga adenantha* fruit oil.

CalcionexTM

Natural calcium source from red algae

Calcium-rich powder, standardized to 30%, from the algae *Lithothamnium calcareum*.

HydroLanoTM

Anhydrous Lanolin

Anhydrous Lanolin with high water absorption capacity.

* The extract is available in both organic and conventional variants.

* At Fagron, we are committed to providing high-quality products that offer potential health benefits. However, we want to emphasize that the efficacy of the products may vary from individual to individual and can be influenced by several factors, including but not limited to dosage and usage, health status and conditions, lifestyle and diet, allergies and sensitivities, and individual variability.

For more information, see the product brochures or contact your local representative.

Join Us on this Journey

“We invite you to join us on this exciting journey of innovation and discovery. Explore the pages of this catalog to discover our range of Fagron Innovative Materials and see how they can elevate your business. Together, we can shape the future of personalized care and make a positive impact worldwide.”

OleaFruTM

The Health Potential of Olive Fruit

General Information

Premium Extract: OleaFruTM is an olive fruit extract that encapsulates health-enhancing compounds sourced from Greek olives.

Potent Bioactives: Olive fruits contain a rich array of polyphenolic compounds, including hydroxytyrosol, tyrosol, verbascoside, oleocanthal, and oleacin. OleaFruTM is standardized to 5-8% hydroxytyrosol, a powerful antioxidant officially recognized by EFSA for its daily intake of at least 5 mg to protect blood lipids (LDL) from oxidative stress (Regulation EC No 432/2012).

Biological Activity: Hydroxytyrosol conducts an intricate symphony within the body, activating key molecular pathways and enhancing antioxidant and anti-inflammatory defenses.

Eco-friendly Extraction: OleaFruTM is extracted using an environmentally friendly subcritical water extraction and natural chromatographic enrichment.

Key Benefits

Cardiovascular Health: Clinical data showed the ability of hydroxytyrosol to reduce low-density lipoprotein (LDL) and olive fruit extract was shown to provide protective effects in individuals at risk of arterial stiffness.

Other Promising Health Benefits: Olive fruit extract holds promise in supporting both metabolic health and bone health.

Skincare: Olive fruit-based extracts are highly valued in cosmetics due to their antioxidant and anti-aging properties.

Recommended Use, Dosage, and Safety

Dietary supplements: Can be formulated into capsules, softgels, sachets, drinks, and tablets, at dosages ranging from 100 mg/day to 1400 mg/day, depending on the desired final hydroxytyrosol concentration. It can be used alone or in combination with other (synergistic) ingredients.

Topical Applications: Up to 2% OleaFruTM extract in the final product (creams, lotions, or gels).

Safety: Olive fruit extract and its active compound, hydroxytyrosol, are generally regarded as safe for human consumption and cosmetic use.

Specifications

Botanical name	<i>Olea europaea</i>
Part used	Olive fruit
Composition	40-45% native extract, 55-60% maltodextrin
Appearance	Dark green-brownish powder
Total Phenolic Content	≥50 mg GA/g
Hydroxytyrosol Content	5-8%
Antioxidant Activity	IC ₅₀ ≤200 µg/ml (DPPH radical scavenging assay)
CAS No.	84012-27-1
Other	non-GMO, vegan, and vegetarian-friendly
Shelf-life	24 months unopened, stored in a cool and dry location

The extract is available in both organic and conventional variants.

OleaLifa™

The Healing Power of Olive Leaf

General Information

Premium Extract: OleaLifa™ is a high-quality olive leaf extract (OLE) derived from the Greek koroneiki olive plant, standardized to contain **10% oleuropein**. Oleuropein, a type of phenolic bitter compound, is a well-recognized compound known for its potential health benefits.

Potent Bioactives: In addition to oleuropein, OleaLifa™ also comprises other valuable phenolic compounds, including hydroxytyrosol, tyrosol, acteoside (verbascoside), caffeic acid, p-coumaric acid, and vanillic acid, along with a substantial amount of flavonoids.

Biological Activity: OLE and its bioactive components demonstrate a wide range of pharmacological activities mediated by various molecular mechanisms that confer antioxidant, anti-inflammatory, and antimicrobial properties to the extract.

Eco-friendly Extraction: OleaLifa™ is obtained through an environmentally friendly subcritical water extraction process, followed by natural chromatographic enrichment.

Key Benefits

Cardiovascular Health: OLE consumption can lower blood pressure, LDL cholesterol, and inflammatory markers.

Hypertension: A relevant study on stage-1 hypertension patients showed similar significant effects on blood pressure reduction between OLE (500 mg twice daily) and a hypertensive medication (Captopril 12.5-25 mg twice daily).

Antiviral Properties: OLE holds promise in supporting the management of viral infections, for example, upper respiratory tract infections and skin infections such as herpes.

Skincare and Personal Care: OLEs are used in cosmetic formulations providing antioxidant and rejuvenating benefits.

Recommended Use, Dosage, and Safety

Dietary Supplementation: In the form of capsules, softgels, sachets, drinks, or tablets, at dosages ranging from 100 to 1000 mg/day. It can be used alone or in combination with other (synergistic) nutraceutical ingredients.

Topical Applications: OleaLifa™ can be integrated into creams, lotions, and gels at concentrations up to 2%.

Safety: OLE is generally regarded as safe for human consumption and cosmetic use.

Specifications

Botanical name	<i>Olea europaea</i>
Part Used	Olive leaf
Composition	70-75% native extract and 25-30% maltodextrin
Appearance	Light green powder
Oleuropein Content	~10%
Total phenolic content (Folin-Ciocalteu)	≥50 mg GA/g
Antioxidant activity	IC50 ≤200 µg/ml (DPPH radical scavenging assay)
CAS No.	8001-25-0 / 84012-27-1
Other	non-GMO, vegan, and vegetarian-friendly
Shelf-life	24 months unopened, stored in a cool and dry location

The extract is available in both organic and conventional variants.

OleaOlix™

The Extraordinary Ultra Concentrated Extract derived from Extra Virgin Olive Oil

General Information

Premium Extract: OleaOlix™ is an ultra-concentrated high phenolic liquid extract of Greek Extra Virgin Olive Oil (EVOO) standardized to 20% polyphenols. 1kg of OleaOlix™ extract is produced from 1000kg of olive oil.

Biological Activity: The secret behind EVOO's remarkable health benefits lies in its unique bioactive compounds, particularly polyphenols like oleocanthal, oleacein, hydroxytyrosol, flavonoids, and triterpenic acids. These active compounds exert their actions at the cellular and subcellular levels, interacting with nucleic acids, carbohydrates, proteins, and lipids to achieve powerful antioxidant and anti-inflammatory effects.

Health Claim: The EFSA has approved a health claim that olive oil polyphenols contribute to the protection of blood lipids from oxidation based on a daily intake of at least 5 mg polyphenols (hydroxytyrosol and its derivatives) per 20 g of olive oil (Regulation EC No 432/2012).

Eco-friendly Extraction: OleaOlix™ is extracted using an environmentally friendly liquid extraction method.

Key Benefits

Cardiovascular Health: High Phenolic EVOO and its polyphenols help reduce cardiovascular risk factors, lower blood pressure, and improve arterial stiffness and inflammation.

Metabolic Health and Diabetes Management: High Phenolic EVOO, containing oleocanthal and oleacein, has shown positive effects on glycemic control and insulin sensitivity.

Skincare and personal care: Olive oils and their extracts are used in cosmetic formulations to provide moisturizing, antioxidant, and anti-aging effects.

Recommended Use, Dosage, and Safety

Dietary Supplements: can be formulated into softgels and liquid preparations at a daily dosage ranging from 25 mg (~5 mg polyphenols) to 125 mg (~25 mg polyphenols) OleaOlix™ extract.

Topical Applications: for cosmetic formulations with up to 2% OleaOlix™ extract.

Safety: High Phenolic EVOO and its extract are generally well-tolerated and safe.

Specifications

Common name	High Phenolic Extra Virgin Olive Oil (EVOO) Extract
Botanical name and part of the plant used	Oil is obtained from olives, the fruit of the olive tree, <i>Olea europaea</i>
Composition	100% native extract
Appearance	Viscous brown liquid
Total polyphenols (Folin-Ciocalteu)	~20%
Other	Gluten-free, non-GMO, suitable for vegan and vegetarian diets
Shelf-life	24 months unopened, stored in a cool and dry location

SidTea+™

The Power-packed Greek Mountain Tea Extract

General Information

Premium extract: SidTea+™ is a dry extract derived from the Greek Mountain Tea plant.

Potent Bioactives: SidTea+™ contains a wealth of bioactive compounds, including flavonoids (apigenin), phenolic acids, phenylethanoid glycosides (verbascoside), terpenoids (iridoids and kauranes), and essential oils.

Biological Activity: SidTea+™ delivers powerful antioxidative effects by neutralizing reactive oxygen species (ROS) and anti-inflammatory effects by inhibiting the production of pro-inflammatory cytokines. Scientific research highlights Greek Mountain Tea's remarkable antioxidant, anti-inflammatory, gastroprotective, spasmolytic, and antimicrobial properties.

Eco-friendly Extraction: SidTea+™ is extracted using an environmentally friendly subcritical water extraction and natural chromatographic enrichment process.

Key Benefits

General Health and Immune Support: Recognized by the EMA (European Medicine Agency) for its efficacy in relieving coughs and mild stomach discomfort, Greek Mountain Tea is a go-to for relief of coughs and mild stomach discomfort.¹

Blood Pressure Management and Antioxidative Effects: SidTea+ supplementation was shown to lower systolic blood pressure and reduce oxidative stress levels, contributing to cardiovascular health.

Cognitive Health and Mental Wellbeing: Greek Mountain Tea extract was shown to improve cognitive performance, increase cerebral blood flow, and reduce anxiety.

Recommended Use, Dosage, and Safety

Dietary Supplements: at a daily dosage ranging from 100 to 1500 mg that can be formulated into capsules, softgels, sachets, drinks, or tablets. It can be used alone or in combination with other (synergistic) nutraceutical ingredients.

Topical Applications: up to 2% SidTea+ in the final cosmetic product.

Safety: Greek Mountain Tea extract consumption is well tolerated and safe.

Specifications

Composition	80% <i>Sideritis scardica</i> (Greek Mountain tea) native extract and 20% maltodextrin
Parts used	Flowers, leaves, and stems
Appearance	Beige powder
Total phenolic content	≥50 mg GA/g
Antioxidant activity	IC50 ≤200 µg/ml (DPPH radical scavenging assay)
Other	non-GMO, vegan and vegetarian-friendly
Shelf-life	24 months unopened when stored in a cool, dry place

The extract is available in both organic and conventional variants.

VinoPhex™

The Health Fountain of Grape Pomace

General Information

Premium extract: VinoPhex™ is a powerful Greek grape pomace extract derived from the remnants of winemaking.

Potent Bioactives: It boasts a wealth of bioactive compounds, including polyphenols like resveratrol, quercetin, and catechins, such as oligomeric proanthocyanidins.

Biological Activities: Bioactive compounds harness the antioxidant power by elevating antioxidant enzymes to scavenge free radicals and reactive oxygen species, while also offering anti-inflammatory capabilities by modulating key factors in inflammation.

Eco-friendly Extraction: VinoPhex™ is extracted using an environmentally friendly subcritical water extraction and natural chromatographic enrichment process.

Key Benefits

Cardiovascular Health: Clinical trials reveal the ability of grape pomace and seed extract to support heart health, lower blood pressure, and reduce low-density lipoprotein (LDL).

Metabolic Wellbeing: Grape pomace extract has been associated with improved blood sugar and insulin sensitivity which may promote metabolic health.

Skincare: Grape-based extracts are valued in cosmetics for their antioxidant, anti-aging, and UV-protection properties.

Recommended Use, Dosage, and Safety

Dietary Supplements: Can be formulated into capsules, softgels, sachets, drinks, or tablets at a daily dosage ranging between 100-500 mg. It can be used alone or in combination with other (synergistic) nutraceutical ingredients.

Topical Applications: Up to 3% VinoPhex™ in the final product (creams, lotions, or gels).

Safety: With a rich history of safe consumption and usage, grape pomace extract studies report it as safe for consumption and cosmetic use.

Specifications

Botanical Name	<i>Vitis vinifera</i>
Parts used	Grape skins, seeds, stems, and leaves
Composition	90% native extract, 10% maltodextrin
Appearance	Brown powder
Total Phenolic Content	≥40 mg GA/g
Antioxidant Activity	IC50 ≤200 µg/ml (DPPH radical scavenging assay)
CAS No.	85594-37-2 / 84929-27-1
Other	non-GMO, vegan, and vegetarian-friendly
Shelf-life	24 months unopened, stored in a cool, dry location

Akkermat™

The Power of Nature and Innovation for Weight Management and Metabolic Health

General Information

Premium Formulation: Akkermat™ combines a chili pepper extract, encapsulated in a fiber-rich fenugreek extract matrix using FENUMAT technology.

Potent Bioactives: Akkermat™ contains at least 2% of powerful capsaicinoids including capsaicin, dihydrocapsaicin, and nordihydrocapsaicin.

Biological Activity: Capsaicinoids, mainly capsaicin, act as a metabolic activator influencing several pathways, genes, and proteins involved in interconnected processes that impact energy metabolism.

Sustained-release effect: Akkermat™ thanks to its unique formulation offers a controlled release, ensuring a sustained, lasting effect and improved bioavailability.

Key Benefits

Metabolic Health Support and Weight Management: Akkermat™ harnesses the metabolism-boosting power of capsaicinoids that promote thermogenesis, and energy expenditure in brown fat tissue, adding to weight loss.

Cholesterol Management: Capsaicinoids intake is associated with the reduction of lipid oxidation and lower LDL cholesterol levels.

Appetite Regulation: Capsaicinoids may affect hormones that help curb appetite and enhance satiety.

Gut Health Modulation: Akkermat™ may positively influence gut microbiota composition and intestinal mucus production.

Antioxidant and Anti-Inflammatory Effects: Capsaicinoids exhibit antioxidant properties, scavenging free radicals and potentially reducing inflammation in adipose tissue.

Recommended Use, Dosage, and Safety

Dietary Supplements targeting metabolic health and weight management, at a daily dosage ranging from 100-300 mg, equivalent to 2 to 6 mg of capsaicinoids.

For enhanced metabolic management, consider combining Akkermat™ with other synergistic nutrients.

Safety: Akkermat™ and its ingredients are safe and well-tolerated when used as recommended but intake of capsaicinoids is contraindicated in individuals with digestive issues, pregnant and lactating women, and children.

Specifications

Ingredients	Chili pepper fruit extract (<i>Capsicum annuum</i>), debittered fenugreek seed extract (<i>Trigonella foenum-graecum</i>) rich in soluble dietary fiber, cellulose powder
Total Capsaicinoids (capsaicin, dihydrocapsaicin, nordihydrocapsaicin)	≥2%
Additives/Excipients	Sunflower lecithin
Appearance	Free-flowing beadlets
Color	Light yellowish brown
Residual solvents	Ethanol, acetone
Other	Gluten-free, Vegan, Kosher, Halal, Non-GMO
Shelf-life	24 months when stored in tightly sealed containers, at 20-30°C, protected from direct sunlight

MetaboMelo™

Optimizing Carbohydrate Metabolism with Bitter Melon Extract

General Information

Premium Extract: MetaboMelo™ is a dried bitter melon fruit extract standardized to **7% charantin**.

Potent Bioactives: Bitter Melon's fruit contains triterpenoids like charantin (a natural compound with an insulin-like effect), momordicin (renowned for its antimicrobial, anti-inflammatory effects, and immune support), phenolic compounds such as quercetin, carotenoids like lutein, phytosterols, and alkaloids.

Biological Activity: Bitter melon exerts its beneficial anti-diabetic effects through several mechanisms of action and regulated pathways including regulation of energy metabolism pathways and genes.

Gentle Extraction: MetaboMelo™ is extracted using a gentle ethanol-water extraction method, preserving its natural properties.

Key Benefits

Blood sugar regulation and hypoglycemic effect: Bitter melon extract supplementation was shown to lower fasting plasma glucose levels and HbA1c levels.

Metabolic Wellbeing: Bitter melon extract may positively impact blood lipid levels and help combat advanced glycation endproducts (AGEs).

Weight management: Bitter melon extract may support reductions in body weight, body mass index (BMI), waist circumference, and body fat percentage.

Recommended Use, Dosage, and Safety

Dietary Supplements: Alone or in conjunction with other synergistic nutrients, at a daily dosage ranging from 100 to 2000 mg, often administered in divided doses.

Designed for formulations supporting carbohydrate metabolism, body weight, and overall metabolic health.

Safety: bitter melon has a well-established safety record, having been consumed in various forms, including teas, extracts, and dietary supplements. Clinical data indicates that consumption is well tolerated and safe.

Specifications

Botanical Name	<i>Momordica charantia L.</i>
Part used	Fruit
Standardization	7% charantin
Appearance	Fine, slightly yellow powder
Other	Gluten-free, non-GMO, vegan and vegetarian-friendly
Storage	In a cool and dry place, do not freeze, keep away from light and heat
Shelf-life	3 years

NaringiCol™

Nature's Solution to Cholesterol Management

General Information

Premium Extract: NaringiCol™ boasts a high standardization of **98% naringin**.

Potent Bioactive: Naringin is a natural polyphenolic compound found in citrus fruits.

Biological Activity: Naringin has the potential to regulate multiple pathways and mechanisms within the body. It influences cholesterol and metabolic pathways, antioxidant pathways, and anti-inflammatory pathways.

Gentle Extraction: NaringiCol™ is extracted using a gentle ethanol-water extraction method, preserving its natural properties.

Key Benefits

Cholesterol Management: Naringin helps regulate (LDL) cholesterol levels, promoting cardiovascular health.

Metabolic Health Support: Naringin may support blood sugar and metabolic health, aiding in weight management and overall vitality.

Anti-inflammatory effects: Naringin's anti-inflammatory properties may help reduce inflammation.

Antioxidant effects: Naringin may conquer oxidative stress and support the body's defense against free radicals.

Recommended Use, Dosage, and Safety

For Dietary Supplements targeting cholesterol metabolism and metabolic health, at a daily dosage ranging from 100-450 mg, used alone or in combination with other (synergistic) ingredients.

For enhanced cholesterol management, consider combining NaringiCol™ with fermented rice standardized in monacolin, or other synergistic nutrients.

It is considered a viable alternative for individuals with statin intolerance.

Safety: Naringin intake is well tolerated and safe.

Specifications

Source	<i>Citrus grandis</i> (L.) Osbeck, commonly known as Pomelo
Part Used	Fruit
Appearance	Light yellow powder
Other	GMO-free, gluten-free, allergen-free, irradiation-free, vegan and vegetarian-friendly
CAS No.	10236-47-2
Shelf-life	24 months when stored in a cool, dry place, away from light and heat.

Piceidox™

The Natural Antioxidant Firepower

General Information

Premium Extract: Piceidox™ is standardized to **98% polydatin**.

Potent Bioactive: Polydatin, also known as piceid, is a natural compound derived from Japanese knotweed. Structurally, it's resveratrol's relative that shares similar health benefits. Polydatin is a potentially superior antioxidant compared to resveratrol.

Biological Activity: Polydatin activates molecular signaling pathways leading to the increased activity of antioxidative enzymes and anti-inflammatory molecules.

Gentle Extraction: Piceidox™ is extracted using a gentle method, preserving its natural properties.

Key Benefits

Women's Health: Based on clinical findings, polydatin in combination with palmitoylethanolamide (PEA), reduced pain associated with endometriosis and dysmenorrhea.

Digestive Health: Based on clinical findings, polydatin with PEA, significantly reduced the severity of abdominal pain in patients suffering from IBS (Irritable Bowel Syndrome).

Skin Health: Based on clinical findings, polydatin used topically and orally, contributed to the improvement of the skin barrier, mitigation of local inflammatory responses, and a reduction in itching and scratching tendencies in individuals with atopic dermatitis.

Recommended Use, Dosage, and Safety

For Dietary Supplements: Alone or in synergy with other active compounds, such as PEA, at a polydatin dosage falling within 40-80 mg per day.

Topical Applications: Can be used in final concentrations ranging from 0.2% to 1.5%.

Safety: Polydatin use, oral and topical, is considered safe and well-tolerated.

Specifications

Source	<i>Polygonum cuspidatum Sieb</i>
Part Used	Root
Appearance	Fine whitish powder
Other	GMO-free, gluten-free, allergen-free, irradiation-free, vegan and vegetarian-friendly
Storage	In a cool and dry place, do not freeze, keep away from light and heat
Shelf-life	3 years

Nervonex™

Nurturing Nerve Health with Nervonic Acid

General Information

Premium Extract: Nervonex™ is standardized to 90% nervonic acid derived from a plant source.

Potent Compound: Nervonic acid is an omega-9 fatty acid essential for the development of the nervous system.

Biological Role and Function: Nervonic acid serves as a vital structural component within biological membranes, with a prominent presence in nerve tissue. It upholds the integrity and optimal functioning of the nervous system, while simultaneously enhancing the fluidity and stability of cell membranes. It is a key component of the lipids that make up the myelin sheath, facilitating myelin biosynthesis and the rapid and efficient conduction of nerve signals. While research into nervonic acid's specific effects is ongoing, its importance as a structural component in nerve tissue suggests that it plays a significant role in maintaining nervous system health and function.

Gentle Extraction: Nervonex™ is extracted using a gentle method, preserving its natural properties.

Key Benefits

Anti-inflammation: Nervonic acid exhibits anti-inflammatory potential by modulating diverse molecular pathways and suppressing the expression of inflammatory markers.

Neuroprotection: Nervonic acid exhibits promising neuroprotective properties, safeguarding nerve cells and promoting heightened antioxidant defenses by increasing glutathione levels.

Cognitive Function: Nervonic acid's contribution to stable cell membranes, the myelin sheath, and efficient nerve signal transmission may benefit cognitive performance.

Recommended Use, Dosage, and Safety

Dietary Supplements: Alone or in combination with other synergistic ingredients, at a daily dosage ranging from 30 to 200 mg per day.

Safety: Nervonic acid is naturally present in breast milk and plant oils. It is generally regarded as safe for human consumption.

Specifications

Source	<i>Macaranga adenantha</i> fruit oil
Appearance	White crystal powder or flakes
Other	GMO-free, gluten-free, allergen-free, preservative-free, vegan and vegetarian-friendly
Residual solvents	Acetone
Storage	In a cool and dry place, do not freeze, keep away from light and heat
Shelf-life	2 years

Calcionex™

A Natural Source of Calcium from Algae for Stronger Bones

General Information

Premium Extract: Calcionex™ provides natural and bioavailable calcium (calcium carbonate) standardized to a minimum of 30%.

Potent nutrients: Calcionex™ harnesses the natural power of red algae, a calcified structure from the cold sea waters that delivers a synergistic blend of vital nutrients including minerals and vitamins.

Biological Activity: Calcium, an essential mineral, plays a pivotal role in numerous bodily functions, especially in maintaining healthy bones, teeth, heart rhythm, blood pressure, blood clotting, and hormonal balance.

Eco-Conscious Calcium Source: Calcionex™ is sourced sustainably and ethically.

Key Benefits

Dietary Calcium Needs: many individuals fall short of their daily calcium requirements, necessitating calcium-fortified foods and supplements.

Bone Health: may prevent bone mineral loss and enhance bone structure, specifically in menopausal and post-menopausal women and individuals in need of extra bone health support.

Joint Health: may offer benefits for reducing osteoarthritis-related pain and joint stiffness.

Teeth Health: may offer a promising alternative for managing oral conditions related to enamel demineralization.

Recommended Use, Dosage, and Safety

Dietary Supplements: with a focus on bone and joint health, the daily dosage of Calcionex™ ranges from 100 up to 3000 mg. It can be used either independently or in combination with other nutrients that support bone health. The typical recommended daily calcium intake for adults is 800 mg, as per EU Regulation 1169/2011, aligning closely with the EFSA guideline of 750 to 1000 mg/day.

Safety: Red algae-derived calcium-rich extract supplementation is generally considered safe when used as directed and within recommended dosage limits.

Specifications

Source	<i>Lithothamnium calcareum</i> (Pallas), a red algae (seaweed) known as maerl or coralline algae
Parts used	Stem, consisting of the limestone skeleton
Origin	Uncultivated red algae
Appearance	Grey powder
Other	GMO-free, gluten-free, allergen-free, preservative-free, vegan and vegetarian-friendly
Storage	Keep in a cool, dry place, protect from freezing, and avoid exposure to light and heat
Shelf-life	3 years

HydroLano™

Ultimate Solution for Skin Hydration

General Information

Premium Product: HydroLano™ is a high-purity anhydrous lanolin with high water-absorbent properties and a gentle smell.

High Water Absorption Capacity: HydroLano™ can absorb up to 20% of water upon direct incorporation and up to 65% of water upon gradual/partial incorporation

Gentle smell: HydroLano™ has a milder scent in comparison to traditional lanolin products that may have a strong odor.

Sustainable product: HydroLano™ is a natural and biodegradable product obtained without causing harm to sheep, making it an environmentally friendly and sustainable choice.

Key Benefits

Deep Moisturization: HydroLano™, may form a protective barrier on the skin, preventing water loss and keeping it hydrated and supple.

Skin Softening: It may help soften rough and dry skin, making it a valuable ingredient in creams, lotions, and lip balms.

Barrier Function: HydroLano™ may act as a protective agent against environmental factors, such as wind and cold, helping to maintain the skin's natural barrier.

Wound Healing: It may aid in the healing of minor cuts, scratches, and chapped skin.

Lip Care: HydroLano™ may moisturize and protect the delicate skin of the lips in lip care products.

Recommended Use, Dosage, and Safety

HydroLano™ is recommended for use in skincare and cosmetic products.

The typical final concentration of anhydrous lanolin ranges from 2% up to 20%.

Safety: Topically applied anhydrous lanolin is generally considered safe for most individuals.

Specifications

INCI name	Lanolin
Alternative Names	wool wax, wool grease, anhydrous lanolin, lanolinum anhydricum
Appearance	Solid yellow paste
Color	Yellow
Odor	Characteristic
Water absorption capacity (%)	200 min
CAS No.:	8006-54-0
Other	Gluten-free, non-GMO, Non-irradiated
Shelf-life	3 years when stored unopened, in a cool, dark place, and protected from extreme temperatures and direct sunlight
