

# Pharmaflore - Industry

## Catalogue

# Introduction

For many years, **Pharmaflore N.V.** has guaranteed **high-quality herbs, herbal blends and brewing raw materials in bulk and small packages tailored to production or consumer needs.** In 2013, Pharmaflore N.V. was incorporated into the Fagron group and Fagron pursues the same values in the pharmaceutical -, veterinary and food sectors.

Our catalogue provides an overview of what we offer as standard. Moreover, we have the possibility to repackage bulk packaging in our cleanrooms in smaller volumes tailored to your production or end use with or without your own label.

We have an extensive network at home and abroad to source items that are not in our standard range. Our speciality is making customised blends. We are equipped to make blends with >30 different components in both fruit and powder form.

## Product range

For several years, breweries, distilleries and other food industries have been among our loyal customer base. Each in turn, they process our plants as a natural part of their finished product.

Below are some frequently requested herbs in this application.

PRODUCT	LATIN NAME	SMELL & TASTE
Orange peel	Citrus aurantii amarae	aromatic, slightly sweet, slightly bitter
Coriander	Coriandrum sativum L.	aromatic, spicy, slightly sweet, slightly bitter
